all of the expertise in all of the agencies. I think that our original committee decision was a good one, and I think that the legislature should stick with the independent study and let the chips fall where they may. I won't be around to dictate what the results

will be. I just think that it is good that the people that do the planning are not the ones that are going to feed at the trough.

SPEAKER PROUD: Is there further discussion on the Barnett amendment? If not, Senator Barnett, you may close.

SENATOR BARNETT: Mr. President, members of the legislature, obviously Senator Stahmer didn't pay any attention, or he would not have argued the way he did. Because I said that the individual that was going to do the study was going to consult with any agency that had to deal with the juveniles and would come up with the decision made from many, many voices. This is the way that he participates in these studies. I think that if we want to put it in another department, then what we say, and I think that it really boils down to this. If we want to put it in another area, we are telling the Director of the Public Welfare and the Director at the Nebraska Center for Children or youth that we do not feel that they are going to bring us the real facts. I think that if Senator Stahmer would have said this it would have made it a little more out in the open. I think that we have confidence in Larry Graham and Bob Rodell and that they would give us the proper thing that we need plus I think that they feel that Dr. Sorota would do a good job for them and the juveniles of this state. Therefore I would move for the adoption of the amendment.

SPEAKER PROUD: Question is the adoption of the Barnett amendment. All those in favor vote aye, those opposed vote no. This requires 25 votes. We are voting on the Barnett amendment to LB1054. If you are going to vote please vote. This is the Barnett amendment to 1054. It requires 25 votes. Have you all voted? Senator Barnett.

SENATOR BARNETT: Mr. Chairman, I'm going to ask for a call of the house, this is important to all of us.

SPEAKER PROUD: Senator Barnett, would you hold your request for a moment or two.

SENATOR BARNETT: I most certainly will, if I could lobby for...

SPEAKER PROUD: I'll permit you to make themotion.

SENATOR BARNETT: Whatever you.....it doesn't cost any money if anybody wants to do it.

SPEAKER PROUD: Senator Barnett, we have closed the discussion on it. Senator Barnett, you may now make your motion.

SENATOR BARNETT: I make a motion for a call of the house.
